Colleagues:

Thank you for your interest in EXPO Collaborative Projects – experiential learning opportunities for students of public health offered by the Mid-Atlantic Regional Public Health Training Center (MAR-PHTC). The MAR-PHTC is one of 10 regional public health training centers supported by the Health Resources and Services Administration (HRSA). The mission of the MAR-PHTC is to “increase the number of the individuals in the public health workforce, enhance the quality of the public health workforce, and improve the ability of the public health workforce to meet national, state, and local health care needs.”

To achieve these outcomes, the MAR-PHTC established a community-based training partnership to serve students and public health practitioners across Delaware, Maryland, Pennsylvania, Virginia, West Virginia, and Washington D.C. Our partners include:

- DC Department of Health
- DC Primary Care Association
- Delaware Department of Health and Social Sciences
- Drexel University Dornsife School of Public Health
- Johns Hopkins Bloomberg School of Public Health
- Maryland Association of County Health Officers
- Pennsylvania Association of Community Health Centers
- Virginia Community Healthcare Association
- West Virginia Local Health Inc.
- West Virginia School of Public Health

Collaborative projects involve faculty members and students in initiatives designed to enhance public health services to medically underserved communities.

We hope that this guidance helps you to establish EXPO Collaborative Projects at your site. We welcome your questions and comments and look forward to working with you.

Many thanks,

Patricia I. Documét, MD, DrPH
Director, MAR-PHTC
pdocumet@pitt.edu
The Mid-Atlantic Regional Public Health Training Center (MAR-PHTC) is the Health Resources and Services Administration (HRSA) funded Public Health Training Center in Region 3. The MAR-PHTC adopts a collaborative team approach for its experiential learning opportunities, called EXPO. The MAR-PHTC EXPO Team is comprised of academic institutions, faculty, students, governmental and community-based public health organizations, and experts in marketing and evaluation. Drexel University (Drexel), Johns Hopkins University (JHU), and West Virginia University (WVU) are Pitt Public Health’s EXPO Partners. The MAR-PHTC EXPO Team Organizational Chart and contact information is found at Attachment A. Together, we strive to create opportunities to help the future public health workforce meet the demands they will face as public health professionals.

EXPO experiential learning opportunities focus on eliminating health disparities. Healthy People 2020 defines a health disparity as:

“a particular type of health difference that is closely linked with social, economic, and/or environmental disadvantage. Health disparities adversely affect groups of people who have systematically experienced greater obstacles to health based on their racial or ethnic group; religion; socioeconomic status; gender; age; mental health; cognitive, sensory, or physical disability; sexual orientation or gender identity; geographic location; or other characteristics historically linked to discrimination or exclusion.” (Source: https://www.healthypeople.gov/2020/about/foundation-health-measures/Disparities)

MAR-PHTC offers two experiential learning opportunities for students of public health: EXPO Field Placements and EXPO Collaborative Projects. EXPO Collaborative Projects may include research projects or community interventions identified by a governmental public health agency or other public health service entity. Examples of previous collaborative projects are below.

About EXPO Collaborative Projects

EXPO Partners Drexel, JHU, and WVU facilitate EXPO Collaborative Projects for students of their respective universities. Each EXPO Partner will develop their own processes for facilitating and promoting their EXPO Collaborative Projects. An example of a flyer developed by Pitt Public Health to promote its EXPO Collaborative Projects is found at Attachment B. Please contact Joe Shadwick (jos180@pitt.edu) for a flyer template, if desired.

EXPO Partners must confirm student eligibility (see Student Eligibility section) and complete an EXPO Partner Cover Sheet for each student. A sample of this document is found at Attachment C. The completed form must be sent to Leslie Fink (lfink@pitt.edu) shortly after the student’s collaborative project proposal is accepted.

Students, Faculty Supervisors, and academic CBTPs should review the checklists at Attachment D to ensure that project guidelines are being followed. Each checklist pertains to a specific role.

EXPO Exchange

Current and former HRSA supported students, their supervisors, faculty collaborators, former MAR-PHTC sponsored students, and CBTPs will be invited to participate in the EXPO Exchange—a distance accessible interactive forum where participants can share experiential learning experiences, discuss projects, engage in panel discussions, and learn about career and networking opportunities in public health practice. The EXPO Exchange will promote both intra-regional and interdisciplinary learning. The EXPO Exchange will be offered once in the spring and once in the fall each year.

Student Eligibility

A student is eligible to participate in an EXPO Collaborative Project if they are:
- enrolled, either part-time or full-time, in an accredited graduate school of public health (Master’s or Doctoral program), and
- a citizen of the United States, a non-citizen U.S. national, or a foreign national who is a U.S. Lawful Permanent Resident.

What is a Non-Citizen U.S. National?
This is a person who is a native of an American territorial possession. These possessions include American Samoa, Swains Island, and the Commonwealth of the Northern Mariana Islands.

What is a foreign national who is a U.S. Lawful Permanent Resident?
This is a citizen of another country who has a “green card.” Individuals here on a student visa only DO NOT fit this category.

Students can only be funded once through a HRSA supported experiential learning opportunity (i.e., they can participate in either an EXPO Field Placement or an EXPO Collaborative Project).
Students receive a $3,500 stipend for participating in an EXPO Collaborative Project. Stipends cannot be used for tuition, fees, health insurance, or other associated costs. The stipend disbursements are made in accordance with the policies of the student’s academic institution.

Each stipend must be included by the EXPO Partner as a budget line item. Only students who receive stipends can be reported to HRSA. Compensation cannot to be given to the Site Supervisor or to any organization participating in EXPO Partner Collaborative Projects.

If a student’s abstract is accepted at a public health conference or meeting, additional travel support may also be awarded.

All EXPO Collaborative Project students are expected to conduct themselves in a professional and ethical manner. In addition, all EXPO Collaborative Project students must:
- touch base with the faculty supervisor weekly in person, through email, in a phone call, or via a virtual conversation like Zoom
- Meet with Kim Francis at the project mid-point (Pitt students only)
- complete their project in 3–6 months
- participate in the EXPO Exchange (recommended)

All EXPO Collaborative Project students must complete the following documents:
- EXPO Collaborative Project Proposal Form. This document, to be completed with the student’s faculty supervisor, can be found on the EXPO tab of the MAR-PHTC website (https://lms.marphtc.pitt.edu/mod/page/view.php?id=256). A sample of this document is found at Attachment E.
- EXPO Collaborative Project Student Agreement. This document is completed by the student and submitted to Leslie Fink (lfink@pitt.edu) at Pitt Public Health before the EXPO Collaborative Project begins. A sample agreement is found at Attachment F.
- EXPO Collaborative Project: Student Intake Form. The student completes this document required by HRSA before the EXPO Collaborative Project begins. All students will receive this form via Qualtrics Survey in an email from Pitt Public Health. A sample intake form is found at Attachment G.
- EXPO Collaborative Project: Student Post-questionnaire. The student completes this document required by HRSA after the EXPO Collaborative Project is concluded. All students will receive this form via Qualtrics Survey in an email from Pitt Public Health. A sample post-questionnaire form is found at Attachment H.
- EXPO Collaborative Project: Student 1 Year Post-questionnaire. The student completes this document required by HRSA approximately one year after the student has concluded their EXPO Collaborative Project. All students will receive this form via Qualtrics Survey in an email from Pitt Public Health. A sample one-year evaluation is found at Attachment I.
All EXPO Collaborative Project students are also required to submit the following:
- a scientific report or poster presentation including an abstract, introduction, methodology, findings, conclusions, and discussion;
  - if the collaborative project does not lend itself to a scientific report, alternative formats may be acceptable
    Examples of alternative formats are:
    - abstract, introduction, background, learning objectives, expected outcomes, methods, discussion, and conclusion; or
    - abstract, organization profile, organization analysis, project description, and self-evaluation of the practicum experience.
- an abstract for submission at a public health conference
  - travel and other conference support for those students whose abstracts are accepted may be provided by Pitt Public Health
  - a listing of possible conferences is found at Attachment J

The following federal funding language and MAR-PHTC logo must be on all deliverables and presentations (the logo can be obtained by contacting Joe Shadwick at jos180@pitt.edu):

*This project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under grant number 1 UB6HP31689-01-00 “Public Health Training Centers” for $3,699,596. This information or content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.*

All deliverables must be sent to the MAR-PHTC (marphtc@pitt.edu) who will ensure that they comport with HRSA requirements. Students must include their name, the name of their field site and supervisor, and their university on their final reports. The MAR-PHTC will submit the scientific report and abstract to HRSA on behalf of all EXPO Collaborative Project students.

In the event that the report does not meet the format criteria, the student and faculty member will be notified with feedback on what changes are required for full acceptance of the student’s work. Any student whose report is not accepted will be asked to submit a corrected report within 30 days.

Pitt Public Health students may use their EXPO Collaborative Projects as a basis for their Master’s Essay.
The Faculty Supervisor serves as a role model and guide for the student. They are responsible for:

- Completing, along with the student, an EXPO Collaborative Project Proposal. This document can be found on the EXPO tab of the MAR-PHTC website ([https://lms.marphtc.pitt.edu/mod/page/view.php?id=256](https://lms.marphtc.pitt.edu/mod/page/view.php?id=256)). A sample of this document is found at Attachment E.
- Ensuring the project is completed in 3–6 months
- Touch base with the student weekly in person, through email, in a phone call, or via a virtual conversation like Zoom
- Meet with Kim Francis at the project mid-point (supervisors of Pitt students only)
- Communicating with the EXPO Partners to resolve any issues. Issues concerning Pitt Public Health students can be directed to Kim Francis (kaf73@pitt.edu).

In addition, the Faculty Supervisor is required to complete the following documents:

- **EXPO Collaborative Project Faculty Intake Form.** The Faculty Supervisor completes this document required by HRSA shortly after the EXPO Collaborative Project proposal is accepted. All Faculty Supervisors will receive this form via Qualtrics Survey in an email from Pitt Public Health. A sample intake form is found at Attachment K.
- **EXPO Collaborative Project Faculty Post-evaluation** The Faculty Supervisor completes this document required by HRSA after the EXPO Collaborative Project proposal is completed. All Faculty Supervisors will receive this form via Qualtrics Survey in an email from Pitt Public Health. A sample intake form is found at Attachment L.
- Any additional forms required by the student’s school and/or department

A faculty member serving as a Faculty Supervisor for an EXPO Collaborative Project must be

EXPO Marketing Example

THE MID- ATLANTIC REGIONAL PUBLIC HEALTH TRAINING CENTER (MAR-PHTC)

EXPO COLLABORATIVE PROJECTS

The MAR-PHTC provides trainings, resources, and experiential learning opportunities throughout the Department of Health and Human Services Region 3. The Central Office for the MAR-PHTC is located in the Center for Public Health Practice at the University of Pittsburgh, Graduate School of Public Health. Together with our Community-based Training Partners—DC Department of Health, DC Primary Care Association, Delaware Department of Health, Drexel University Dornsife School of Public Health, Johns Hopkins Bloomberg School of Public Health, Pennsylvania Association of Community Health Centers, West Virginia Local Health Inc., and West Virginia University School of Public Health—the MAR-PHTC strengthens the public health system by training the future public health workforce.

Faculty-Student Collaborative Project

A Faculty-Student Collaborative Project:

- is a joint project between faculty and students that is designed to enhance public health services to medically underserved communities;
- may include research projects or community interventions identified by a governmental public health agency or other public health service entity;
- enables students and faculty to collaborate with the agency to address specific public health issues among a particular target population and work together to develop the methodology and plan of approach; and
- can range in duration from three to six months.

Students of public health and are eligible to participate in an EXPO Faculty-Student Collaborative Projects if they are:

- a citizen of the United States,
- a non-citizen U.S. national, or
- a foreign national having possession of a visa permitting permanent residence in the United States.

*Please note that because this program is funded through a federal grant there is a student citizenship requirement.

Stipend Requirements

Participants will receive a stipend of $3,500 to help defray living expenses associated with any EXPO Faculty-Student Collaborative Project.

For more information please visit the EXPO page on our website, marphct.pitt.edu or contact Kim Francis, kaf73@pitt.edu.
EXPO Partner Cover Sheet

Please complete and send to Leslie Fink at lfink@pitt.edu. All fields are required.

1. Academic Partner Information:
   A. Partner
      ☐ Drexel ☐ JHU ☐ WVU
   B. Partner location:
      ☐ Baltimore ☐ Morgantown ☐ Philadelphia

2. Is this a collaborative project or field placement?
   ☐ Collaborative Project (joint project with academic partner’s faculty)
   ☐ Field Placement (embedded project with a non-academic partner)

3. Supervisor Information (Please list only the primary supervisor. For Field Placements, the supervisor must work at the non-academic site.)
   A. Host organization:
   B. Organization location (full street address with zip+4):
   C. Supervisor name:
   D. Supervisor email:
   E. Supervisor phone:

4. Student Information
   A. Name:
   B. University:
   C. Program of study:
   D. Degree program:
   E. Graduate academic year (1st, 2nd, etc.):
   F. Email:
   G. Phone:
   H. The student is:
      ☐ U.S. citizen
      ☐ non-citizen U.S. national
      ☐ a foreign national who is a U.S. Lawful Permanent Resident, i.e. is in possession of a “green card”
      (Individuals on a student visa are not eligible to apply.)

5. Project Information
   A. Title:
   B. Short description (1–2 sentences):
   C. Learning objectives
      Example: At the conclusion of the field placement, the student will be able to apply systems thinking tools to a public health issue.
      At the conclusion of this project, the student will be able to:
      ●
   D. Which of the following areas does this project address (select all that apply):
      ☐ mental health
      ☐ opioid abuse
      ☐ childhood obesity
      ☐ none of the above
   E. Describe the medically underserved community this project serves:
   F. Project start date:
   G. Anticipated project end date:
☐ Confirm your Faculty Supervisor is **A UNIVERSITY FACULTY MEMBER.**

☐ Confirm this is a joint project with **faculty from your university.**

☐ Confirm **EXPO stipend is not used** for tuition, fees, health insurance, etc.

Attend all required **meetings.**

☐ Meet with Faculty Supervisor in the **1st week** of the project to review project requirements.

☐ Touch base with the faculty supervisor **weekly** in person, through email, in a phone call, or via a virtual conversation like Zoom.

☐ Meet with Kim Francis at the **project mid-point** (Pitt students only) in a phone call or via a virtual conversation like Zoom.

☐ Participate in the **EXPO Exchange** (strongly recommended).

Complete **EXPO Collaborative Project forms and Qualtrics surveys.**

☐ Student Agreement – submit before starting CP (email to Leslie Fink, lfink@pitt.edu)

☐ Student Intake Form – submit before starting CP (emailed survey)

☐ Student Post-questionnaire – submit when project concludes (emailed survey)

☐ Student 1 Year Post-questionnaire – submit 1 year post project completion. (emailed survey)

Complete these **project-related documents** and submit to marphtc@pitt.edu.

☐ Scientific report, poster presentation, or approved alternative format

☐ Abstract for submission at public health conference

☐ Any other items required by the Faculty Supervisor

End of Checklist (5/6/2021)
Faculty Collaborative Project Checklist

Attend all required meetings.
☐ Meet with the student in the 1st week of the project to review the project requirements.
☐ Touch base with the student weekly in person, through email, in a phone call, or via a virtual conversation like Zoom.
☐ Meet with Kim Francis at the project mid-point (supervisors of Pitt students only) in a phone call or via a virtual conversation like Zoom.

☐ Determine any additional project deliverables.

☐ Complete project in 3–6 months.

☐ Communicate any issues to:
  Drexel: Ijeoma Okere, iuo24@drexel.edu
  Johns Hopkins: Dan Barnett, dbarnet4@jhu.edu
  University of Pittsburgh: Kim Francis, kaf73@pitt.edu
  West Virginia University: Audra Hamrick, ahamric3@hsc.wvu.edu

Complete EXPO Collaborative Project forms and Qualtrics survey.
☐ Faculty Intake Form – submit before starting CP (emailed survey)
☐ Faculty Post-evaluation – submit when project concludes (emailed survey)
☐ Additional forms required by student’s school and/or department

End of Checklist (5/6/2021)
Academic CBTP Collaborative Project Checklist

☐ Confirm Faculty Supervisor is a UNIVERSITY FACULTY MEMBER.

☐ Confirm this is joint project with a member of your faculty.

☐ Confirm the student has not already participated in a Collaborative Project or Field Placement.

Verify eligibility of student:
☐ Enrolled part/full-time for a health profession in accredited graduate school
☐ Has had no previous EXPO Field Placement or EXPO Collaborative Project
☐ One of the following:
  ☐ Citizen of the United States
  ☐ Non-citizen U.S. National
  ☐ Foreign National with Permanent Residence in the U.S. (Green Card)

☐ Complete EXPO Cover Sheet.
  Submit to Leslie Fink, lfink@pitt.edu.

Maintain regular contact with student and faculty advisor:
☐ Reach out to student monthly
☐ Touch base with faculty advisor monthly or more often if requested

Verify the student has completed these project-related documents and submitted them to marphtc@pitt.edu.
☐ Scientific report, poster presentation, or approved alternative format
☐ Abstract for submission at public health conference
☐ Any other items required by the Faculty Supervisor

End of Checklist (10/21/2020)
EXPO FACULTY-STUDENT COLLABORATIVE PROJECT PROPOSAL

EXPO Faculty-Student Collaborative Project (CPs) are designed to enhance public health services to medically underserved communities. CPs may include research projects or community interventions identified by a governmental public health agency or other public health service entity. The students and faculty advisors collaborate with the agency to address specific public health issues among a specified target population, and work together to develop the methodology and plan of approach. CPs can range in duration from 3 to 6 months.

Student Eligibility
A student is eligible to participate in an EXPO Collaborative Project if they are:

- enrolled, either part-time or full-time, in an accredited graduate school of public health (Master’s or Doctoral program), and
- a citizen of the United States, a non-citizen U.S. national, or a foreign national who is a U.S. Lawful Permanent Resident, i.e. is in possession of a “green card” (Individuals on a student visa are not eligible to apply.)

Students can only be funded once through a HRSA supported experiential learning opportunity (i.e., they can participate in either an EXPO Field Placement or an EXPO Collaborative Project).

*Please complete. All fields are required.*

I. Site Information
   A. Name of Organization: ____________________________________________________________
   B. Work Site Address: ______________________________________________________________

II. Student Information:
   a. Name (including title): __________________________________________________________
   b. Email: _______________________________________________________________________
   c. Phone: _______________________________________________________________________
   d. School: ______________________________________________________________________
   e. Department: __________________________________________________________________
   f. Current Degree Program: ________________________________________________________
   g. Graduate Academic Year: _______________________________________________________

III. Student Citizenship (check only one)
*Please note that because this program is funded through a federal grant there is a student citizenship requirement.

   I am:
   □ a U.S. citizen
   □ a non-citizen U.S. national
   □ a foreign national who is a U.S. Lawful Permanent Resident, i.e. is in possession of a “green card” (Individuals on a student visa are not eligible to apply.)
   □ none of these (please explain) _______________________________________________________________________________________

IV. Faculty Information
A. Name (including title): ____________________________________________________________
B. Email: __________________________________________________________________________
C. Phone: __________________________________________________________________________
D. School: __________________________________________________________________________
E. Department: _______________________________________________________________________

V. Project Title: _______________________________________________________________________

VI. Project Description (1–2 paragraphs): ________________________________________________

VII. Please estimate the number of hours required to complete the project: _________________

VIII. Learning Objectives (1 or more; use an action verb):
Example: At the conclusion of the collaborative project, the student will be able to apply systems thinking tools to a public health issue.

At the conclusion of this collaborative project, the student will be able to:
• ____________________________________________________________________________
• ____________________________________________________________________________

IX. Does this project address any of the following? (check all that apply)
☐ mental health ☐ opioid abuse ☐ childhood obesity

X. Describe the medically underserved community this project serves.
Example: ‘Rough sleepers’ (i.e. those who are street homeless)

XI. Please list the proficiencies necessary for fulfilling collaborative project responsibilities (e.g., comfortable with public speaking, valid driver’s license, subject-specific knowledge, technical skills, etc.).______________________________

XII. Successful completion of the collaborative project requires submission of the following deliverables:
• a scientifically oriented report
• an abstract for submission to a public health conference
• an abstract for participation in Pitt Public Health’s Dean’s Day competition (Pitt Public Health students only).

FACULTY: Please list any additional deliverables you require (i.e., research report, program implementation plan, program evaluation plan, community health curriculum).______________________________

XIII. Signatures

Printed Name of Site Supervisor  Signature of Site Supervisor  Date _________________________
Printed Name of Student  Signature of Student  Date _________________________

After completing this form, please submit it via email to marphtc@pitt.edu as a Word document attachment. Scanned forms or pdfs will not be accepted.

You will be notified by email regarding the status of your proposal.
EXPO Collaborative Project Student Agreement

Student Responsibilities

The EXPO Faculty-Student Collaborative Project, sponsored by the Mid-Atlantic Regional Public Health Training Center, provides graduate students in public health or health sciences the opportunity to complete a research project or community intervention identified by a governmental public health agency or other public health service entity. The students and faculty advisors collaborate with the agency to address specific public health issues among a specified target population, and work together to develop the methodology and plan of approach. The project may focus on eliminating health disparities. Healthy People 2020 defines a health disparity as “a particular type of health difference that is closely linked with social, economic, and/or environmental disadvantage. Health disparities adversely affect groups of people who have systematically experienced greater obstacles to health based on their racial or ethnic group; religion; socioeconomic status; gender; age; mental health; cognitive, sensory, or physical disability; sexual orientation or gender identity; geographic location; or other characteristics historically linked to discrimination or exclusion.” (Source: https://www.healthypeople.gov/2020/about/foundation-health-measures/Disparities)

As an EXPO Collaborative Project student, I agree to:

- Complete this project in 3–6 months
- Meet with my Faculty Supervisor in the first week of the project to review the project requirements
- Attend weekly meetings with my Faculty Supervisor to review the status of my project
- Meet with Kim Francis at the project mid-point (Pitt students only)
- Complete the required project deliverables:
  - a scientific report or poster presentation that includes the following sections: abstract, introduction, methodology, findings, conclusions, and discussion
  - an abstract suitable for submission to a public health conference
  - an abstract submitted to Pitt Public Health Dean’s Day (Only currently matriculated Pitt Public Health students are eligible to compete)
  - any deliverables required by the Site Supervisor
- Include federal funding language and MAR-PHTC logo on all deliverables and presentations (logo can be obtained by contacting Joe Shadwick at jos180@pitt.edu): This project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under grant number 1 U86HP31689-01-00 “Public Health Training Centers” for $3,699,596. This information or content and conclusions are those of the author and should not be construed as the official position or policy of, nor should any endorsements be inferred by HRSA, HHS or the U.S. Government.
- Actively participate in the work team of which I am a member
- Conduct all work in a professional and ethical manner
- Use work resources (e.g., computers, internet) only for legitimate work purposes
- Follow the dress code guidelines set forth by my Site Supervisor
- Maintain confidentiality consistent with my placement organization and federal standards

Additionally, I will watch the 7-minute video What is health equity? to aid in my understanding of health disparities. See the next page for information on how to access the video.

Finally, I will complete the following documents.

- Collaborative Project Student Intake Form (to be completed at the beginning of the project)
- Collaborative Project Student Post-questionnaire
- Collaborative Project Student 1 Year Post-questionnaire
- Any additional forms required by my school and/or department

I have read, understand, and agree to comply with the Student Responsibilities.

Printed Name: ___________________________________________ Signature: ______________________ Date: ________________________
EXPO Collaborative Project: Student Intake Form

Understanding your collaborative project experience is important to us. Please take five minutes to complete this intake form. Thank you!

1. Name

(First Name) ____________________________ (Last Name) ____________________________

2. The name of your Site Supervisor

(First Name) ____________________________ (Last Name) ____________________________

3. What is the graduate academic year you are currently completing (based on academic credits)?
☐ First ☐ Second ☐ Third ☐ Fourth ☐ Fifth or higher

4. Select your disciplinary area of concentration (select all that apply)
☐ Public Health – Biostatistics and Informatics
☐ Public Health – Environmental health
☐ Public Health – Epidemiology
☐ Public Health – Health policy and management
☐ Public Health – Behavioral and Social Science
☐ Public Health – Community Health
☐ Public Health – Global Health
☐ Public Health – Maternal and Child Health
☐ Public Health – Minority Health and Health Disparities
☐ Other (Please Specify ____________________________)

5. Please indicate if you are a full-time or part-time student. ☐ Full-time ☐ Part-time

6. Which of the following best describes your enrollment status? ☐ Campus based ☐ Distance learning ☐ Hybrid

7. What is your gender? ____________________________

8. What is your year of birth? ____________________________

9. Are you Hispanic or Latino? ☐ Yes ☐ No

10. Which best describes your race? (select all that apply) ☐ American Indian/Alaska Native ☐ Asian ☐ Black or African American ☐ Native Hawaiian or other Pacific Islander ☐ White ☐ Other (Specify____________________)

11. What is your address of longest residence?

12. Are you the first in your family to attend college? ☐ Yes ☐ No

13. What is your veteran status?
☐ Active Duty Military ☐ Reservist ☐ Veteran (prior service) ☐ Veteran (retired) ☐ Not a Veteran

The following questions inquire about your understanding of health disparities. Please respond True or False.

14. Everyone is affected by implicit bias. ☐ True ☐ False

15. In [Pennsylvania], there are clear health disparities by age. ☐ True ☐ False

16. In [Pennsylvania], there are clear health disparities by race. ☐ True ☐ False

The next questions are about what you plan to do after you graduate.

18. Which of the following do you plan to pursue further training in? Select all that apply.
☐ Public Health ☐ Medically Underserved Communities ☐ Primary Care Settings ☐ Rural Settings

19. Which of the following settings do you intend to become employed in? Select all that apply.
☐ Medically Underserved Communities ☐ Primary Care Settings ☐ Rural Settings ☐ Public Health Agency

Thank you!
EXPO Collaborative Project
Student Post-questionnaire

Congratulations on completing your collaborative project! Understanding your experience is important to us. Please take 10 minutes to complete this form. Please be sure to indicate your email in the field below, so that we can follow-up with you in one year. Thank you!

1. Name
   (First Name)                                         (Last Name)

2. The name of your collaborative project mentor
   (First Name)                                         (Last Name)

3. Non-university affiliated email: _______________________

4. Did you receive training in any of the following? Select all that apply and indicate the approximate number of contact hours:
   A. Primary care setting                              Number of contact hours: ______
   B. Medically underserved community                    Number of contact hours: ______
   C. Rural area                                        Number of contact hours: ______
   D. None of the above

5. Did you receive training in any of the following areas? Select all that apply.
   A. Opioid use treatment
   B. Telehealth
   C. Integrated behavioral health in primary care
   D. Medication assisted treatment (MAT) for SUD/OUD
   E. Substance use treatment
   F. I participated on a health care team delivering integrated behavioral health services in primary care
   G. I received a SAMHSA waiver to prescribe medication assisted treatment (MAT)
   H. None of the above

Please indicate the degree to which you agree with the following: (A. Strongly Disagree; B. Disagree; C. Neutral; D. Agree; E. Strongly Agree)
   6. I was assigned to do about the right amount of work.
   7. Overall, my learning objectives were met by the project.
   8. I have identified actions I will take to apply information I learned from this project.
   9. The information I learned during the project is relevant to my future public health career plans.

Please indicate the degree to which you agree with the following:
   10. The collaborative project experience has increased my interest in working with vulnerable/underserved populations.
   11. The experience complemented my coursework.
   12. My mentor reviewed agency policies and standards of practice with me.
   13. My mentor was knowledgeable in his/her area of responsibility.
   14. My mentor was accessible to me.
   15. My mentor provided adequate supervision.

16. To what extent did your collaborative project involve working with or for underserved populations?
   A. To a great extent
   B. To a moderate extent
   C. To some extent
   D. To a small extent
   E. Not at all

17. To what extent have your public health practice skills increased because of the collaborative project?
A. To a great extent
B. To a moderate extent
C. To some extent
D. To a small extent
E. Not at all

18. To what extent has your knowledge of public health increased because of the collaborative project
A. To a great extent
B. To a moderate extent
C. To some extent
D. To a small extent
E. Not at all

19. Please write a one-sentence definition of health disparities. ________________________________

20. Everyone is affected by implicit bias.
☐ True ☐ False

21. In [STATE], there are clear health disparities by age.
☐ True ☐ False

22. In [STATE], there are clear health disparities by race.
☐ True ☐ False

23. In [STATE], there are clear health disparities by income.
☐ True ☐ False

24. To what extent have your public health practice skills increased because of your collaborative project experience?
A. To a great extent
B. To a moderate extent
C. To some extent
D. To a small extent
E. Not at all

The following questions are about your plans after you graduate.

25. Which of the following do you plan to pursue further training in? Select all that apply.
A. Public Health
B. Medically Underserved Communities
C. Primary Care Settings
D. Rural Settings

26. Which of the following settings do you intend to become employed in? Select all that apply.
A. Medically Underserved Communities
B. Primary Care Settings
C. Rural Settings
D. Public Health Agency

27. What was the best part of your collaborative project experience? ________________________________

28. What suggestions do you have for improving the collaborative project experience? ________________________________

29. Please give an overall rating of your collaborative project experience.
A. Poor
B. Fair
C. Good
D. Very Good
E. Excellent

30. Is there anything else you would like to say about your experience? ________________________________

Thank you!
EXPO Collaborative Project
Student Evaluation – 1 Year

Now that some time has passed since your collaborative project, we would like to follow-up with you to learn about your current ideas and experiences. Please take 10 minutes to complete this form. Thank you!

1. Name

(First Name) (Last Name)

2. Please write a one-sentence definition of health disparities.

_____________________________________________________________________________________________

Please respond True or False to the following.

3. Everyone is affected by implicit bias.
☐ True ☐ False

4. In [STATE], there are clear health disparities by income.
☐ True ☐ False

5. In [STATE], there are clear health disparities by age.
☐ True ☐ False

6. In [STATE], there are clear health disparities by race.
☐ True ☐ False

Please indicate if you are working in one or more of the following settings.

7. Are you currently working in a medically underserved area?
☐ Yes ☐ No

8. Are you currently working in a primary care setting?
☐ Yes ☐ No

EXPO Collaborative Project: Faculty Intake Form

Please take five minutes to complete this intake form. Thank you!

1. Contact information
   Name: ___________________________________________________________
   Title: ___________________________________________________________
   Organization: _____________________________________________________
   Address: _________________________________________________________
   Phone: ___________________________________________________________
   Email: ___________________________________________________________

2. Name of the student doing the collaborative project: ___________________

3. Select your primary disciplinary area (select all that apply)
   □ Public Health – Biostatistics and Informatics
   □ Public Health – Environmental health
   □ Public Health – Epidemiology
   □ Public Health – Health policy and management
   □ Public Health – Behavioral and Social Science
   □ Public Health – Community Health
   □ Public Health – Global Health
   □ Public Health – Maternal and Child Health
   □ Public Health – Minority Health and Health Disparities
   □ Other (Please Specify ______)

4. What is your veteran status?
   ☐ Active Duty Military ☐ Reservist ☐ Veteran (prior service) ☐ Veteran (retired) ☐ Not a Veteran

5. Please indicate your profession and primary area of study or practice. For example, ‘nutrition;’ or ‘behavioral health - marriage and family therapy.’ __________________________________________

6. What is your gender? ____________________________

7. What is your year of birth? __________________________

8. Are you Hispanic or Latino?
   ☐ Yes ☐ No

9. Which best describes your race? (select all that apply)
   A. American Indian/Alaska Native
   B. Asian
   C. Black or African American
   D. Native Hawaiian or other Pacific Islander
   E. White
   F. Other (Specify: ____________)

10. What is your address of longest residence?

11. Are you the first in your family to attend college?
   ☐ Yes ☐ No
EXPO Collaborative Project
Faculty Post-evaluation

Your feedback is important to us. Please take five minutes to complete this evaluation of the Collaborative Project student. Thank you!

1. Name (Faculty): ________________________________________________________

2. Name of the student doing the collaborative project: ________________________

3. Does this training site implement interprofessional education and/or practice?
   ☐ Yes  ☐ No

4. Does this site offer any of the following? Please select all that apply:
   A. This site offers integrated behavioral health services in a primary care setting
   B. This site offers opioid use treatment services
   C. This site offers telehealth services
   D. This site offers medication assisted treatment (MAT) for OUD
   E. This site offers substance use treatment services
   F. None of the above

5. Are any of the following vulnerable populations served at this site? Please select all that apply:
   A. Adolescents
   B. College students
   C. Individuals with mental illness or substance use disorders
   D. Migrant workers
   E. People with disabilities
   F. Returning war veterans (Iraq or Afghanistan)
   G. Uninsured/Underinsured persons/families
   H. Tribal Population
   I. Children
   J. Homeless individuals
   K. Lesbian/Gay/Bisexual/Transgender
   L. Military and/or military families
   M. Pregnant women and infants
   M. Undocumented Immigrants
   O. Veterans
   P. None of the above
   Q. Chronically ill
   R. Individuals with HIV/AIDS
   S. Low income persons/families
   T. Older adults
   U. Refugee Adults
   V. Unemployed
   W. Victims of abuse or trauma

6. The amount of contact with your student was...
   A. Too little
B. About right
C. Too much

Please indicate the degree to which you agree with the following.

7. The student’s learning objectives were met by the project.
   A. Strongly disagree
   B. Disagree
   C. Neutral
   D. Agree
   E. Strongly Agree

8. I had enough information to implement this Collaborative Project.
   A. Strongly disagree
   B. Disagree
   C. Neutral
   D. Agree
   E. Strongly Agree

9. I knew who to ask questions about the Collaborative Project if I needed to.
   A. Strongly disagree
   B. Disagree
   C. Neutral
   D. Agree
   E. Strongly Agree

10. What other supports would you need to implement the Collaborative Project?________________________________________

11. Did having a student with the Collaborative Project help you or your project or organization? Please explain.
______________________________________________________________________________________________________________

12. During his/her collaborative project, to what extent has [STUDENT] tried to understand health disparities?
   A. To a great extent
   B. To a moderate extent
   C. To some extent
   D. To a small extent
   E. Not at all

13. What was the best thing about the Collaborative Project?________________________________________________________

14. What suggestions do you have for improving the Collaborative Project?___________________________________________

15. Please give an overall rating of the Collaborative Project.
   A. Poor
   B. Fair
   C. Good
   D. Very Good
   E. Excellent

16. Is there anything else you would like to say about the Collaborative Project?_____________________________________
   Thank you!
